

Sign up to receive your electric bill by email.

It's convenient. It's timely. It even helps the environment.

As a Ripley Power and Light customer, you can choose to receive your monthly electric bill by email, instead of through the U.S. Postal Service.

We feel that many of our customers will like the convenience and timeliness of their monthly "e-statement."

As soon as we post our billing each month, you'll receive your bill as a PDF attachment in your email. The PDF bill will look exactly like the electric bill we mail to you.

You can pay your bill on our website through the convenient link we give you in the

email. You can print the PDF and pay your bill through our drive-through, night-deposit box or by mail.

Customers who decide to get their bill through email will have the benefit of seeing their bill several days before a mailed bill would arrive.

You'll also have the gratification that in a small way you are helping the environment by cutting down on unnecessary paper.

If you want to receive your electric bill by e-statement, you'll find a sign-up form on the front page of our website:

ripleypower.com - or you can call the Ripley office at 731-635-2323 or the Halls office at 731-836-7595.

Sign up for e-statements at ripleypower.com, or call the Halls or Ripley office.
