

NO MORE WAITING ...

E-Statement program delivers your electric bill faster, more conveniently

Ripley Power and Light Company customers can get their monthly electric bill by email, instead of through the mail, with our "e-statement" program.*

The electronic bill, in PDF format, looks just like the bill you would receive in the mail.

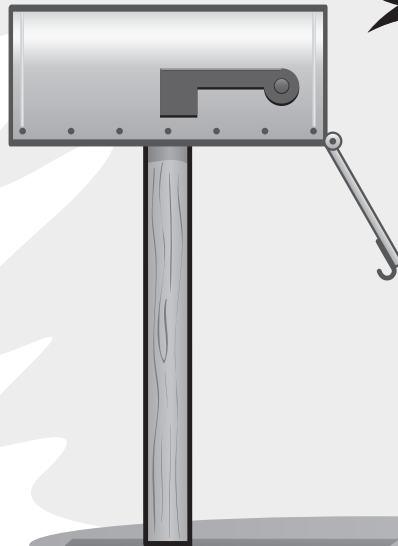

Here's how it works: As soon as we post our billing each month, customers who choose e-statements will see their bills in their email account the same day.

Meanwhile, the rest of the invoices are mailed; taking several days for the U.S. Postal Service to process the mail before sending the bills back to Ripley and then delivering them to your mailbox.

Once you receive your e-statement, **you have options ...**

- ▶ You can pay your bill online through a link in the email.
- ▶ You can print the PDF.
- ▶ You can pay your bill through the other ways we offer, such as through the mail, through our 24-hour kiosk or even in person.

Since your due date for paying your bill is the same – whether you get it by mail or electronically – you'll have more time to make payment.

You'll also have the knowledge that in a small way you are helping the environment by cutting down on unnecessary paper.

Sign up for e-statements online today on our website:
ripleypower.com/account.

** The e-statement program is not available to customers who have prepaid accounts.*

Visit ripleypower.com for more information on paying your bill.
